

PHILIPS ICT SOLUTIONS

Advanced Web Development Bootcamp

Summer Bootcamp 2026 | Teens & Adults | 6 Weeks

The most intensive track we offer. In 6 weeks you will learn to build real websites from scratch using HTML, CSS, and JavaScript — and walk away with a live, deployed project you can show anyone.

Schedule

Duration: 6 Weeks

Days: Monday to Friday

Onsite time: 2:00pm to 4:00pm

Online time: 5:00pm to 7:00pm

Start date: Monday 27th July 2026

Who is this for?

- Teens and adults who want to learn web development
- Anyone who wants to build websites professionally or as a freelancer
- Students preparing for a career in tech
- Entrepreneurs who want to build their own online presence

What You Will Learn

Week 1

HTML Foundations

Semantic structure, tags, forms, links, images, and how browsers read your code

Week 2

CSS Styling

Selectors, colors, fonts, the box model, Flexbox layout, and professional styling techniques

Week 3

Responsive Design

Media queries, mobile-first design, and building pages that work on any screen size

Week 4

JavaScript Fundamentals

Variables, functions, conditionals, loops, arrays, and making pages interactive

Week 5

DOM and Interactivity

Connecting JavaScript to HTML, handling events, forms, and building interactive features

Week 6

Final Project and Deployment

Build and deploy your own website live on the internet with a real shareable link

By the End of This Course You Will Be Able To:

- ✓ Build responsive websites using HTML, CSS, and JavaScript
- ✓ Make pages interactive with JavaScript
- ✓ Deploy a live website with a real URL
- ✓ Start taking freelance website projects
- ✓ Continue learning more advanced frameworks independently
- ✓ Receive a Philips ICT Solutions Certificate of Completion

Fees
