

PHILIPS ICT SOLUTIONS

Kids Computer Basics + Scratch

Summer Bootcamp 2026 | Ages 6 to 10 | 4 Weeks

Give your child a head start this summer. In just 4 weeks, your child will go from never touching a computer to confidently using one — and even writing their first lines of code.

Schedule

Duration: 4 Weeks

Days: Monday to Friday

Onsite time: 11:00am to 12:00pm

Online time: 12:00pm to 1:00pm

Start date: Monday 27th July 2026

Who is this for?

- Children aged 6 to 10 years
- Complete beginners with little or no computer experience
- Kids who want to do something productive this summer
- Young learners curious about technology and how things work

What Your Child Will Learn

Week 1

Computer Fundamentals

What is a computer, parts and functions, using a mouse and keyboard, switching on/off, creating files and folders

Week 2

Typing and File Management

Typing practice, keyboard shortcuts, organizing folders, basic Microsoft Word

Week 3

Introduction to Scratch

What is programming, Scratch interface, sprites and backgrounds, basic movement and animation blocks

Week 4

Build a Scratch Project

Students design and build their own simple Scratch game or animated story to present and take home

By the End of This Course Your Child Will Be Able To:

- ✓ Use a computer confidently and independently
- ✓ Type using proper finger placement
- ✓ Create, rename, and organize files and folders
- ✓ Write basic documents in Microsoft Word
- ✓ Build a simple animated Scratch project
- ✓ Receive a Philips ICT Solutions Certificate of Completion

Fees

Onsite (Kaduna)	N25,000
-----------------	---------
